

**Overview:**

**The Drafting Table is expertly designed to meet the needs of professionals and students alike. With its durable construction and adjustable height, this table is ideal for precision work, including drafting, drawing, and other detailed tasks.**

**Key Features:****● Materials:**

- Tabletop: Made from melamine-coated, highly abrasion-resistant material, ensuring a long-lasting and smooth surface for all your projects.
- Table Top Layer: Constructed with a robust 3-layer chipboard for added strength and stability.
- Frame: Epoxy-coated frame, offering resistance to corrosion and maintaining a sleek appearance.

**● Dimensions:**

- Table Width: 90 cm
- Table Height: Adjustable from 80 to 120 cm, catering to different working preferences and ensuring ergonomic comfort.
- Table Depth: 60 cm
- Plastic Edge Size: 2 mm for added protection and durability.

**● Construction and Design:**

- Rectangular Tube Size: 40/25/2 mm (equivalent), providing a solid and stable framework.
- Oval Tube: 50/30/2 mm (equivalent), offering enhanced structural support.
- Table Thickness: 20 mm or more, ensuring a sturdy and reliable surface for various tasks.
- Floor Protection: Equipped with a kick plate to safeguard floors from scratches and damage.
- Height Adjustment: Infinite height adjustment via lamella locking mechanism with a convenient hand wheel, allowing for precise and effortless adjustments.

**● Weight:**

The table weighs between 25-30 kg, making it robust yet easy to move when needed.

**Applications:**

This drafting table is perfect for architects, engineers, artists, and designers who require a reliable, adjustable, and durable workspace.
