

Description

- Fiat chassis with front-drive with working light system
- Hydraulic power steering
- 4 cylinders, 1200 cm³, petrol
- Electronic injection MPI (Multipoint)
- Gearbox: 5 forward speeds + reverse+ differential
- Hydraulic power steering with double-jointed steering column; Brake system with 4 sensors ABS
- This cutaway model is carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, Lubricating circuits, fuel system, cooling system, etc. Many parts have been chromium, plated, and galvanized for longer life. The engine operates electrically at 220 volts and run at a reduced speed to let the student easily understand and observe the operation of the various mechanical parts. The chassis trainer and the cutaway components is mounted on the stand with the wheels

Equipment for technical and vocational Tesca education and training.

Tesca training equipment is a great tool for professional teachers and technicians that helps explain to students of technical subjects how processes in Petrol multi-point engine chassis with abs - chassis Educational Trainer AT0295 Tesca operate and its technology.

Note: Specifications are subject to change.
