

Electric Pump-Based Dryer A Pioneering Solution for Efficient and Eco-Friendly Drying with a capacity of 500 kg per batch Key Features

Optimal Performance:

- Uniform drying.
- Minimizes energy consumption.

Versatile Applications:

- Suitable for food and agriculture, textiles, and chemicals.

Sustainability Focus:

- Reduces environmental impact.
- Utilizes eco-conscious practices.
- How It Works

Advanced Drying Method:

- Evaporator for removing moisture without losing heat.
- Uses refrigerant to reduce electricity usage.

Note: Specifications are subject to change.
