

Tamarind Seed Removal Machine High-Quality and Efficient Seed Removal Hydraulic Press Machine with manual operation with lever press

Superior Construction:

- Material : Entire machine manufactured with high-quality mild steel.
- Export Quality : Built to meet stringent export standards for durability and performance.

Versatile Die System:

- Included Dies : Comes with 2 dies, each tailored for different production volumes.
- Brick Design : Each die includes 10-20 bricks with a capacity of 500gm and 250gm, enhancing versatility and efficiency.

Key Features:

- High Quality : Ensures robust and reliable performance.
- Multiple Dies : Different dies for varying production needs, offering flexibility in processing.

Note: Specifications are subject to change.
