

**Description**

A plastic-plated wooden base is the support of the main components of the coil ignition of a 4-stroke engine: battery, spark coil, coil, spark plugs.

Rotating the flywheel shows the operation of the whole unit (the action of the platinum points and of the distributor can be observed through the section), and the spark flashing in the respective spark plugs is shown as well.

Tesca training equipment is a great tool for professional teachers and technicians that helps explain to students of technical subjects how processes in Ignition & Charging System Educational Trainer AT0203 Tesca operate and its technology.

Equipment for technical and vocational Tesca education and training.

Note: Specifications are subject to change.
